

****RENEWED MOTION TO PROCEED IN FORMA PAUPERIS**

AND

RENEWED MOTION TO APPOINT COUNSEL**

Plaintiff **Sean Bruce Henry** respectfully submits this renewed motion requesting (1) leave to proceed **In Forma Pauperis ("IFP")** pursuant to 28 U.S.C. § 1915, and (2) appointment of counsel pursuant to 28 U.S.C. § 1915(e)(1).

This renewal is necessary because Plaintiff's financial condition remains extremely limited, and because documented digital interference continues to impair Plaintiff's ability to litigate, access PACER/ECF, and protect his rights without representation.

I. RENEWED MOTION TO PROCEED IN FORMA PAUPERIS

Plaintiff remains unable to pay court fees or costs without sacrificing necessities of life. Updated financial information is as follows:

A. Income

- Rental income: **\$1,400/month**
- No employment income
- No savings, no retirement access, no liquid assets

B. Monthly Obligations

- Mortgage on duplex residence: **\$1,875/month** (currently delinquent by approx. two months)
- Vehicle payment: **\$400/month** (two months delinquent)
- Utilities: overdue
- Repeated fraudulent/duplicate digital subscription charges connected to ongoing identity-theft events

C. Assets

- No functional computer equipment at home (two printers and multiple devices disabled or compromised)
- No discretionary assets

D. Additional Hardship Considerations

- Plaintiff continues to experience severe digital interference, identity-theft impacts, and seizure/takeover of online accounts—impeding access to employment, financial services, and the Court’s systems.
- Plaintiff is entirely dependent on in-person filings and public library computers because electronic filing remains blocked.

Given the above, Plaintiff remains financially unable to pay any filing fees, copying costs, or service costs. Plaintiff therefore **renews his request for IFP status**, including for all proceedings following the October 21, 2025 dismissal and during reconsideration/appeal.

****II. RENEWED MOTION TO APPOINT COUNSEL**

(28 U.S.C. § 1915(e)(1))**

Appointment of counsel is warranted for the following reasons:

A. Complexity of the Case

The case involves:

- widespread identity-theft evidence;
- alteration of court documents;
- blocked filings;
- cyber-interference affecting PACER/ECF access;
- multi-platform digital-forensics issues;

- employment retaliation and discrimination claims;
- overlapping state and federal procedural histories.

These issues require legal and technical expertise beyond the ability of a pro se litigant.

B. Plaintiff's Ability to Present the Case

Plaintiff's ability is severely impaired due to:

- ongoing account compromise;
- inability to electronically file;
- loss of device functionality;
- inability to reliably send or receive email;
- documented alterations of filings and exhibits.

These conditions directly impede Plaintiff's ability to prepare filings, respond to orders, or maintain procedural posture.

C. Merits of Plaintiff's Claims

Plaintiff has submitted **379+ physical exhibits** documenting identity manipulation, altered court submissions, blocked filings, employment-retaliation evidence, and digital interference impacting access to justice.

The District Court dismissed the action **preservice** without reviewing these exhibits. Appointment of counsel would allow for structured presentation and meaningful judicial review.

D. Plaintiff's Documented Barriers to Accessing the Courts

- Repeated inability to upload filings to PACER/ECF
- Device hijack events interfering with legal work
- Spoofed and altered documents discovered on 08/09/2024
- Blocked email submissions to DOJ, MDHR, FBI, FTC

- Physical delivery of evidence required because electronic submission is prevented
- Newly discovered cross-credential contamination involving Plaintiff's former Servion email in his Microsoft Password Manager (Exhibit Z370–Z372)

Given these conditions, Plaintiff cannot safely litigate pro se.

Request

Plaintiff respectfully requests that the Court **appoint counsel** under § 1915(e)(1) to ensure fair consideration of the factual record, proper presentation of evidence, and protection of Plaintiff's procedural rights.

III. RELIEF REQUESTED

Plaintiff respectfully asks the Court to:

1. **Grant renewed IFP status**, including waiver of all filing fees and costs.
2. **Grant renewed appointment of counsel** pursuant to 28 U.S.C. § 1915(e)(1).
3. Accept Plaintiff's previously submitted **Unified Master Exhibit List (A1–Z379+)** into the record for reconsideration.
4. Permit all future filings by physical delivery or alternative method until Plaintiff's electronic-access interference is resolved.

Exhibit A1 – PDF of Submitted Minnesota Unemployment Documents.

Exhibit A2 – Screenshot of Original Plaintiff's complaint (Served 03/31/2023 Filed 04/26/2023) for Minnesota 2nd District Ramsey County Civil Court Case #62-CV-23-2227.

Exhibit A3 – Screenshot of Summary Judgment "Declarations of Kim Martin" March 14th, 2024.

Exhibit A4 – PDF of "Attorney Board of Responsibility Complaint", allegedly intercepted and blocked email 07/25/2024 by alleged hackers who are holding the Plaintiff's alleged hijacked Gmail accounts gagged and hostage.

Exhibit A5 – Screenshot of "Non-Negotiable Nonsense" spoof email from August 9th, 2024 with taunting subject line once opened and shows sent from Plaintiff's own Gmail account (sean.henry007@gmail.com) sent from himself to himself with a misleading activity date of Jun 14 whereas the Plaintiff alleges it was either

August 9th, 2024, or August 10th 2024, or may have been earlier on May 10th, 2024, or May 14th, 2024, as well allegedly tied to the alleged fraudulent tampered with Plaintiff's Pro Se Work Product legal court documents the "Joint Statement of the Case – Doc #52. Published 05/14/2024."

Exhibit A6 – PDF of "AI ChatGPT Evidence Deep Research & Analysis" document utilized for Plaintiff's understanding and comprehension of his legal standing and posture.

Exhibit A7 – PDF of Defendant Summary Judgment Granted on June 5th, 2024, for Ramsey County MN Civil District Court Case #62-CV-23-22

Exhibit A8 – Screenshot of January 4th, 2024, Discovery conference hearing as an alleged ambush of the Plaintiff not knowing the mediation process and he was temporary absent from communications during the first half of the month of December 2023 because he explained to the court that he was absent because he was repairing his mother's and his disabled brother's malfunctioning 1 toilet 1 bathroom of home repair (Plaintiff lives 1 mile away from family home) while also discovering it also had a severe mold infestation that he immediately decided to eradicate considering it as a toxic health hazard, and that it was an emergency to repair immediately whereas the Plaintiff ended up getting sanctioned \$8,368.68 instead as a result from the temporary delay in the Plaintiff's correspondence the 1st half of of the month of December 2023, where the Judge instead decides to deem the Plaintiff's family home 1 bathroom 1 toilet – mold infestation emergency repair was just a "Non-Negotiable" reason for not staying up on top of the Plaintiff's emails and postage mailing, and it was not a valid excuse for the Plaintiff's temporary delay in the court process after being confused on whether or not that new discovery conference meeting the Plaintiff was attending at that moment was either a mediation meeting or if it was a deposition meeting. This detail is why the Plaintiff believes and alleges that the opposing council already had full eyes already on the Plaintiff's "Pro Se Work Product" and court document production, because 8 months later during the Plaintiff's Appeal Case A24-1084, the Plaintiff alleges that he received a suspicious spoofed email immediately

following after the discovery of 1,252 unauthorized edits to the Plaintiff submitted his other half of the court document “Joint Statement of the Case – Doc #52” that was submitted in the district court 05/14/2024 where that spoof email that was apparently sent from the Plaintiff, by the Plaintiff, and to the Plaintiff (sean.henry007@gmail.com) on allegedly 05/10/2024, 05/14/2024, 08/09/2024, or 08/10/2024, (with an attached misleading email activity date reflected as “Jun 14”), that the Plaintiff alleges and believes that once he had opened the email attachments (thinking it possibly was a correspondence received from the MN Appeal’s Court), that the final subject line had a taunting familiar message statement that referenced the judge’s familiar attitude towards the Plaintiff’s prior emergency 1 toilet repair job stating “Non-Negotiable Nonsense” and it also had attached 2-4 of the same iPhone pictures that the Plaintiff had of his mother’s and disabled brother’s 1 broken toilet in 1 mold infested bathroom...whereas the Plaintiff was planning to use these pictures and this emergency repair argument in his upcoming “Appellant’s Brief 128.” of his active Minnesota Appeal’s Case #A24-1084 that he had filed a month earlier on 07/05/2024. The Plaintiff alleges and believes that the opposing council had hacked and wire-tapped his private Adobe subscription, Microsoft Word Doc subscription, Gmail account, and possibly his Apple account by this time period without his knowledge.

No evidence of any employee misconduct other than the employer themselves falsely claiming it is employee misconduct and it is actually proof of quite the opposite because the Plaintiff suggests the solutions to the loan pricing error and he apologizes for the mistake and for the defendant employer staff overlooking the error on behalf of the defendant employer (to help save face to the client in efforts as a customer service etiquette on behalf of the Defendant employer) apologizing to the 3rd party client while the Plaintiff employee was out on PTO (Paid-Time-Off) for bereavement at his father’s funeral 03/15/2022. **Exhibit T2** – 2nd alleged employee misconduct report. It is the same as the 1st misleading alleged employee misconduct report, as this is also false and is misleading containing ample amounts of industry jargon intended only to confuse any reader and is not any evidence of any employee misconduct other than the defendant employer themselves saying it is employee misconduct and is another false exhibit of false statement(s) made to and sent by the defendants and their attorneys to the MN Unemployment Office and the MN Court System(s).

The Plaintiff doesn't understand why the FBI/DOJ or even reporting to Meta Business Support they continue to ignore these cyber terrorist allegations marking this person's domain or name as suspect hacker tip #1 and they continue to not investigate nor assist the Plaintiff with pressing charges or allegations in a civil lawsuit? The alleged suspect even has a website to trace back to (<https://www.apptorium.com>).

Exhibit Z160 – Screenshot of recent opened internet web pages linked to Plaintiff's Comcast/Xfinity accounts and his Apple account.

Exhibit Z162 – Screenshot of "Cyber Terrorist's Threatening Meme", sent to Plaintiff after Plaintiff had seemed to successfully regain his digital identity back with a profile pic added to his Wells Fargo digital account profile, however, it was short lived since the hackers repeated to continue to compromise all of the Plaintiff's tech platform accounts.

Exhibit Z163 – Screenshot of Hackers spoofing computer code digital directions to make the Plaintiff's digital profile as another "False Child" with restrictions. More evidence of hacker sabotage of exploiting "false parental controls" or "false company ownership/management" restrictive platform controls on his highjacked communication devices (3 iPhones (cell phones including his younger autistic brother's and his deceased father's devices), 2 desktop computer, 2 printers, 2

iPad's, 2 Amazon Tablets, 4 TV's, 4 Amazon Alexa's, and even at the local library on their public computer usage after entering my library card number as user identification) and his compromised tech platform accounts (Microsoft, Apple, Meta, Google, Amazon, Comcast/Xfinity ect....) ultimately controlling all the Plaintiff's digital electronic freedom of speech capabilities, most of all his electronic human "Civil Rights", and all his digital electronic internet communications.

Exhibit Z172 – PDF copy version of Plaintiff’s profile picture from taken as an employee at Defendant former employer “Servion, Inc.”, where the original professional employee photo was taken around some time in September 2021. It is the theory or alleged belief of the Plaintiff that the Defendant’s and their recently discovered to also own a “sister tech company” named “Servion Global Solutions” where it is the theory and alleged conclusion that the Servion enterprise collectively would have a tech focused “motive, opportunity, and the technical means” for the alleged hacking, identity theft/impersonation, 15 months of cyber terrorism (since 08/10/2024), and who knows how long the Plaintiff has been allegedly illegally hacked, wiretapped, surveillanced, and monitored.

Exhibit Z173 – Screenshot Microsoft account discretely hidden and spoof incorrect email domain spelling “shnery007” versus the correct spelling domain for Plaintiff’s Yahoo account “shenry007” that is shown tied to his continuously infiltrated Microsoft admin accounts.

Exhibit Z174 – Screenshot showing Admin privileges removed.

Exhibit Z175 – Screenshot of PayPal subscription fraud, autopay failed to pay “XCore.com”. It is unknown what product, service, or app this alleged fake subscription even provides to the Plaintiff, where it is the Plaintiff’s alleged belief that the domain was allegedly used as only a fake digital internet subscription service to only allegedly focus on tethering to the Plaintiff’s stolen compromised accounts and devices, and to illegally wiretap or illegally surveillance the Plaintiff throughout his litigation case(s).

Exhibit Z176 – Screenshot of “#CyberFraudBountyHunters” Plaintiff’s brand new startup cyber security company and brand new cyber fraud investigation company logo. Plaintiff has never been able to fully launch this new startup company web domain because it was initially created out of desperation to preserve and house and to defend against alleged malicious hackers to protect evidence of his screen shots as cyber-attack evidence and preserving evidence of tampered/altere/spoiled/corrupted legal court documents after allegedly being hacked and maliciously cyber attacked ever since 08/10/2024. Where the Plaintiff has created this brand new cyber security company domain under heavy severe malicious daily cyber-attacks from alleged professional cyber hackers who moonlight as alleged professional web developers or alleged professional computer coders..., where the Plaintiff believes it is also ironic that this cyber security domain even still exists to this day because it has only been defended by only 1 person (Plaintiff) as a 1 person security team and it has been under severe cyber-attack daily by either AI or hackers or bad human actors (Plaintiff prefers the term human criminal terrorists instead) while for the past year and a half its been basically real world tested and vetted. The Plaintiff originally named this new cyber security company “Pro Se Fraud Catcher” and incorporated it with the IRS EIN #99-4594517 on 08/23/2024, but it has had to change it’s domain name several times over... and over again, in efforts to elude his alleged ever pursuing professional web developing cyber terrorists, which also ironically this new cyber security company has also ironically been also “hacked”....But since the internet never seems to forget anything even after deletion, the same AI Sentinel Guardbots employed, criminally programmed, and used to hack the Plaintiff and illegally contain the Plaintiff, these AI Sentinel Guardbots have been very useful in backtracking and tracing back the digital footprints and the origin of the alleged suspected cyber terrorist “bad acting” cyber criminals.

Exhibit Z177 – Screenshot of unknown profile “Jason Callihan’s” alleged Amazon profile tied to Plaintiff’s hijacked Amazon account, tied to the Plaintiff’s brand new iPhone cellphone number as of 07/30/2025 with Verizon Wireless set up new Apple iPhone account cellphone number +1 (651) 515-0579

Exhibit Z186 – PDF of Plaintiff's attempted reply brief submitted December 9th, 2024, where the Plaintiff is not certain it was received or reviewed due to alleged hacking and filing interference. The Plaintiff notices portion of the other tampered court document "Comparison Report 08/09/2024, following Plaintiff's electronic submission to the Appeals Court.

Exhibit Z187 – PDF of Appellant's Informal Brief 128.01 recovered by Plaintiff on a later date from various hacked cloud storage account sources. This version is a signed version dated October 21st, 2024, so is most likely the version submitted by the Appellant on either 10/21/2024 or 10/24/2024 as currently today the Plaintiff does not have access to the Appeals website "EMACS" because the Plaintiff has attempted to access it several times to retrieve the earlier submitted case documents and other past Appeal documents from the Appeals Court online website "EMACS", however the Plaintiff is locked out or is denied access and the website always crashes and states an error that the Plaintiff/Appellant does not have permissions any longer where the Plaintiff alleges and accuses this digital online access to the courts system debauchery as just another example of cyber interference and this criminal stranglehold that these alleged hackers have allegedly caused onto the Plaintiff. Maybe if this Appellate Court wants copies of those Appellate court documents, they might have an easier time getting access and permissions. This online denial of access also mirrors the Plaintiff's/Appellant's current denial of access to the US PACER online court web accounts.

Exhibit Z188 – Another version of the Appellant’s Informal Brief from 05/10/2024 (these version were also used as a master brief for both the District Court case and the Appeal Case), so the Plaintiff sent this draft to the Defendant Attorneys on or around 05/13/2024 to add the Plaintiff’s side of his Legal Stance and contribute to the combined “Joint Statement of the Case. Doc #52” submitted by Defendant’s Council Lauren M. Weber (lweber@felhaber.com).

“Pro Se Plaintiff, a tenured Mortgage Underwriter for 20 years specializing in fraud investigations working at Wells Fargo for 10 years being highly trained in a fast-paced financial work environment where Wells Fargo is publicly known to have been in the spotlight by many legal implications from law firms seeking settlement actions in multiple litigation cases..... The Plaintiff knows from his work experience that this digital anomaly detail that he came across 11/16/2025 and was found comingled within his private home computer desktop “Microsoft OneDrive Password Manager” program, that this digital anomaly has a very significant impact relevant and related to all his multiple litigation digital identity theft cases (Minnesota Ramsey County Civil Case #62-CV-23-2227, Minnesota Appeals Case #A24-1084, United States District Court District of Minnesota Case #0:25-cv-03350-LMP-DLM, Judge Laura M. Provinzino, and the United States Court of Appeals for the 8th Circuit Case #25-3196).

Because while although the Plaintiff may not be as “Tech Savvy” as his alleged anonymous hidden adversary counterparts, the Plaintiff still knows what the concept of “fraud” is and the extreme importance of “preserving digital circumstantial evidence” is...and since the likelihood on 11/16/2025 of discovering the Plaintiff’s private personal home computer shows evidence of his stored old former employee Servion, Inc.’s 03/31/2022 email domain credentials alongside his brand new company startup cyber security company credentials “#CyberFraudBountyHunters” DBA “Pro Se Fraud Catcher” incorporated 08/23/2024 after the Plaintiff became aware that of being digitally hacked 08/10/2024, South Saint Paul, MN 55075 Police Department Police Report #24001959 filed 08/14/2024....by creating a cyber security company 08/23/2024 to protect and preserve evidence on the fly out of sheer desperation to defend and preserve ongoing tampered evidence and altered court documents (Exhibit D – Comparison Report 08/09/2024 11:14AM) and alleged prolonged domestic cyber terrorism evidence ever since then.....the likelihood of the Plaintiff’s old 03/31/2022 Servion, Inc.’s employee email address credentials accidentally showing up or getting mixed in or mixed up within being mix-matched or mismatched up or inadvertently syncing up all the Plaintiff’s brand new company credentials and documented court case documents at the same time being denied account access with documented account interference, the Plaintiff believes a jury would not come to the same conclusion that this anomaly and the statistical probability of the existence of this comingled credential anomaly – of that being very high or likely to occur naturally or organically.”

APPELLANT’S APPENDIX INTRODUCTION

(Volumes I–III, Exhibits A1–Z379+)

Appellant respectfully submits Appendix Volumes I–III, containing Exhibits **A1 through Z379+**, totaling more than **379 items**, all manually delivered to the United States District Court for the District of Minnesota on **September 11, 2025, Volume I (A1–Z123)**, and **October 16, 2025, Volume II (Z124–Z369)**, and **November 18, 2025, Volume III (Z370–Z379)** (contained within this document & herein this document - “***Unified Master Exhibit List Volumes I–III (A1–Z379) 11/18/2025***”) due to documented account interference preventing electronic filing. These materials represent the complete evidentiary foundation required for meaningful review of Appellant’s claims in Case No. 0:25-cv-03350-LMP-DLM and contained embed within this submitted document **November 18, 2025, Volume III (Z370–Z379)** submission (United States Court of Appeals for the 8th Circuit Case No. 25-3196).

The District Court’s preservice dismissal does not reflect review of any of these previously submitted past exhibits (A1–Z369), despite placeholder docket entries indicating that the physical

materials were accepted into the Clerk's custody. The dismissal order contains no reference to any exhibit, affidavit, timeline, or supporting documentation, and the docket contains only *generic placeholders*. No exhibit was uploaded, analyzed, or examined. The Appendix therefore provides this Court with the first complete presentation of Appellant's evidentiary record.

I. Overview of the Submitted Exhibits

The exhibits fall into eight primary evidentiary categories:

1. Digital Interference & Identity Compromise

These exhibits document initial signs of account compromise beginning approximately **August 10, 2024**, including:

- unauthorized password changes;
- unauthorized logins;
- anomalous metadata;
- spoofed emails;
- shadow sessions on Apple, Google, Microsoft, and Amazon systems;
- device logs showing authentication failures associated with unknown IP sources;
- Apple/iCloud account resets connected to unexplained takeover events;
- GitHub notifications tied to repositories Appellant did not create or modify; and
- audit-style comparison reports confirming unauthorized modification of Appellant's court documents.

These items establish the onset and escalation of identity compromise and digital interference across multiple platforms.

2. Alteration of Legal Work Product

This category includes:

- Adobe "Compare Documents" reports,
- screenshots capturing mismatched timestamps,
- overlays showing changed text,
- evidence of removed paragraphs, and
- exhibit headers altered without authorization.

The most critical exhibit is the **August 9, 2024 Adobe Comparison Report** confirming **1,252 unauthorized edits** to Appellant's "Pro Se Court Docs Work Product."

These exhibits show document tampering directly affecting litigation.

3. Blocked or Intercepted Filings

Includes:

- submissions to the Minnesota Lawyers Board of Professional Responsibility that did not transmit;
- Minnesota Department of Human Rights filings blocked or returned as undeliverable;
- FTC, FBI, DOJ submissions failing during upload;
- discrepancies between what Appellant attempted to submit and what receiving agencies actually received.

These exhibits corroborate Appellant's assertion that his access to civil and administrative remedies was impaired.

4. Evidence of PACER/ECF Disruption

This set contains:

- screenshots showing PACER listed as **Active** but ECF status for the District of Minnesota as "**Not Available**";
- repeated MFA resets;
- PACER login disruptions;
- placeholder-only exhibit entries;
- unreviewed sealed records transferred to the Eighth Circuit;
- screenshots confirming Appellant could not file electronically at key stages.

These items support the argument that Appellant's inability to file or respond was not voluntary, but a result of system-level interference.

5. Exhibits from Prior Litigation (62-CV-23-2227, A24-1084)

Documents showing:

- procedural irregularities,
- unexplained docket gaps,
- undelivered notices,
- and filings altered between submission and docketing.

These materials demonstrate continuity of interference from previous state and appellate proceedings.

6. Employment & Retaliation Evidence

Includes:

- internal Servion emails;
- HR communications;
- attendance logs;
- termination notices;
- FMLA correspondence;
- screenshots showing altered timestamps and blocked emails;
- post-termination retaliation evidence;
- wage garnishment records.

These items form the factual basis for Appellant's discrimination and retaliation claims.

7. Submitted 2 USB-Drive's – Combined Exhibits List into 1 Unified Master Exhibit List (A1–Z369)

Both physically delivered on September 11, 2025, & October 16, 2025, includes:

- sequentially preserved screenshots,
- financial logs,
- communications to government agencies,
- cloud metadata,
- streaming logs documenting takeover behavior,

- evidence of deliberate profile contamination,
- and chronological records of interference.

These are critical to understanding the timeline and scope of the interference.

8. Newly Discovered 11/16/2025 Evidence (Z370–Z379)

This category includes significant newly discovered anomalies, not yet submitted to the clerk or courts until now with most notably showing:

The Unauthorized Servion Credential Anomaly (Z370)

Appellant's Microsoft Password Manager contains a saved login for "shenry@myservion.com," a corporate email belonging to Appellant's former employer Servion, Inc., which Appellant has not used since March 2022.

Appellant did not import, sync, save, or store this credential.

Its presence alongside Appellant's PACER credentials, court-logins, and business credentials (for #CyberFraudBountyHunters) is not a natural byproduct of browser behavior and cannot occur through ordinary user action.

This exhibit is probative of:

- cross-account contamination;
- credential injection;
- profile hijacking;
- unauthorized cloud-sync access;
- or deliberate insertion by someone with access to Servion systems.

This evidence bears directly upon Appellant's ability to file electronically, access PACER, and respond to court orders.

II. Professional Basis for Appellant's Evidence Recognition

Appellant is a **20-year mortgage underwriter** with:

- fraud-risk review training,

- document-integrity investigation experience,
- audit trail analysis proficiency,
- timestamp authentication knowledge, and
- pattern-recognition accreditation gained through financial compliance environments.

While not a computer technician, Appellant's professional background qualifies him to identify anomalies in document chains, credential behavior, metadata, and discrepancies in audit paths with a high level of reliability.

Every exhibit in this Appendix is preserved using routine fraud-investigation methods, including sequential screenshots, real-time capture, PDF imaging, and immediate written notations where required.

III. Why This Appendix Is Critical to Appellate Review

The District Court dismissed Appellant's case **preservice**, without:

- issuing summons,
- considering the Amended Complaint,
- reviewing any of Appellant's 379+ exhibits,
- or addressing Appellant's account-interference claims.

The Court's order does not reference a single exhibit.

For meaningful review, the Eighth Circuit must examine:

- the digital-interference record,
- the Servion-credential cross-contamination,
- the inability to access PACER/ECF,
- the unreviewed physical exhibits,
- blocked filings,
- tampered documents,
- and the cumulative evidence showing systemic interference.

This Appendix provides the Court with the complete evidentiary foundation absent from the District Court record.

IV. Request for Consideration

Appellant respectfully requests that the Court:

1. Accept Appendix Volumes I–III in their entirety;
2. Review Exhibits A1–Z379+ as part of the appellate record;
3. Consider the Servion credential anomaly (Exhibit Z370) as probative of unauthorized access; and
4. Recognize that the District Court’s preservice dismissal occurred without review of any evidence now before the Court.

V. Visual Chart of the Discovery of 1,252 Unauthorized Edits 08/09/2024 (Joint Statement of the Case 05/14/2024) and the Cyber Terrorism that follows leading up to the Appellant’s active Appeal Case 25-3196

03/07/2021 - Appellant is admitted to the Woodwinds Emergency Room in Woodbury, MN suffering from COVID-19 Virus symptoms.

03/09/2021 - Appellant is seen by Allina Health Doctors Notice and tested negative for COVID-19 and is cleared to return to work pursuant to Respondent Employers Company Policy (if absent more than 3 days a Doctor's Note is Required to Return to Work).

03/11/2021 - Appellant is placed on a verbal adverse employment action disciplinary plan requiring Appellant (only employee and only male employee) to commute full time 5 days a week into the physical office location whereas all other employees are working hybrid or 100% from home due to the 2019-2023 COVID-19 Virus Pandemic.

11/23/2021 - Appellant is temporarily relieved from the 5-day work week commute due to Minnesota winter traffic conditions and is allowed to work hybrid like all other employees.

02/14/2022 - Appellant is served with "Attendance Improvement Plan" written disciplinary notice from Manager alleging tardiness of showing up to work on time, Appellant immediately disputes data discrepancies.

02/17/2022 - Appellant files official discrimination complaint with HR Director claiming sex discrimination and age discrimination asking about his 25-mile commute hardship.

03/08/2022 - Appellants father dies suddenly and Appellant inherits the new family role as sole provider and caretaker to his elderly mother and disabled autistic younger brother.

03/22/2022 - Appellant requests FMLA relief due to financial hardships and life events in an email to the Manager and HR Director.

03/23/2022 - Appellant is denied FMLA protections and is advised by the HR Director that he doesn't qualify for FMLA because he is only a sibling brother to a disabled person.

06/20/2022 - Appellant loses Unemployment Benefits Appeal after Phone call Appeal Hearing with Respondent Employer and their Attorneys making same claims of alleged tardiness and alleged employee misconduct.

03/15/2023 - Appellant's attempted complaint email sent to Minnesota Department of Human Rights (MDHR) is allegedly not delivered and/or is blocked by the email server administrator (**Exhibit F2**).

03/31/2023 - Appellant serves Complaint & Summons on Respondent Servion, Inc. (former employer).

10/30/2023 - Appellant attempts to Amend the Complaint clarifying 17 claims. Defendant's Attorney Lauren M. Weber Responds via US Mail **10/31/2023** exclaiming they deny the Appellant's attempt to amend the Complaint by adding 17 claims and advised that it was inappropriate and untimely. Appellant is confused since the Scheduling order stated the end of amending the complaint goes through **10/30/2023** so the Appellant not knowing what to do hangs onto the attempted amended complaint he served on **10/30/2023** and doesn't submit until **04/12/2024** or **04/15/2024** with Rule 36 Request and the District Court Ignores.

01/02/2024 - Discovery Conference - Appellant is fined \$8,322 approximately in sanctions from missing an apparent Deposition Appointment.

03/14/2024 - Defendants Serve Motion for Summary Judgment.

03/29/2024 - Appellants Responds to Summary Judgment and follows up again with more added documentation to dispute Summary Judgment 04/12/2024, 04/15/2024, 04/20/2024.

04/10/2024 - Appellant files a Continuance asking for more time to respond to Respondent's 301 Page Shotgun Summary Judgment.

04/11/2024 - Summary Judgment Hearing, Oral argument, Appellant asks for more time to respond to the 301 page shotgun Summary Judgment, the Judge consults with the Respondent Attorney Lauren M. Weber who explains to the Judge that she asserts that the Appellant has had ample time to coordinate and draft an efficient, adequate response to their 301-page Summary Judgment since she claims the Appellant has known about the Summary Judgment Motion ever since **December 2023**, despite there **being no evidence found in the record** of the Appellant actually being served with that notice. Appellant advises he is desperately seeking legal representation to aid in navigating the court

system; however, has been unsuccessful thus far. The Judge denies the Appellant's continuance request and gives the Appellant a deadline of 04/18/2024 to have legal representation established via confirmed submitted attorney representation affidavit or else the Judge advised she is going to rule on the Respondent's 03/14/2024 submitted 301 page Summary Judgment paperwork alone without considering any of the Appellant's submitted opposition oral argument or paperwork (03/29/2024 Doc#29).

04/12/2024 - Appellant submits Rule 36 including Amended Complaint 10/30/2023 that the Respondent initially claimed in bad faith the Appellant's attempt was untimely confusing the Pro Se Appellant and why it was not immediately submitted, but again the Appellant points out the Respondent is still concealing evidence and has evaded discovery requests of identified business documents (**Groups A & B**) requested from the Appellants 10/14/2023 interrogatories and the evaded 10/14/2023 production of documents requests where the Appellant has identified the specific documents ever since the original complaint 03/31/2023 and still to this day 11/18/2025 those documents continue to go ignored and unaddressed by all the courts.

04/15/2024 - Appellant submits another Rule 36 "**Missing Doctor's Note 03/09/2021 11:19AM**" required from the Appellant in order to return to work (pursuant to the Respondent's own company policy handbook) after being out sick with suspected COVID-19 symptoms but later tested negative. The Respondent's Granted Summary Judgment was Granted relying on the Respondent's Testimony only of their claims of Appellant's alleged attendance issues and alleged employee misconduct instead.

Exhibit Z374 – Appellants Missing Doctor's Note 03/09/2021.

(04/15/2024 Case #62-CV-23-2227 Index #39 Page #4)

Exhibit Z375 – Respondent’s Own Company Policy Handbook submitted with their own 301-page shotgun summary judgment motion on 03/14/2024.

Employment

Anniversary Date

The first day you report to work is your "official" anniversary date. Your anniversary date is used to compute various conditions and benefits described in this Employee Manual. Your "anniversary date" may change under certain circumstances such as a significant change in position, division/department or if you leave the company for a period of time greater than 30 days.

Attendance

From time to time, it may be necessary for you to be absent from work. The Servion Group is aware that emergencies, illnesses, or pressing personal business that cannot be scheduled outside your work hours may arise. Paid Time Off (PTO) has been provided for this purpose. If you are unable to report to work, or if you will arrive late, contact your manager immediately. If you know in advance that you will need to be absent, please request this time off directly from your manager.

Absence from work for two (2) consecutive days without notifying your manager or the Human Resources Manager will be considered a voluntary resignation.

If you are absent because of an illness for three (3) or more successive days, your manager may request that you submit written documentation from your doctor verifying the illness or injury as well as your ability to return to work. If you are absent five (5) or more days because of an illness or injury, you may be eligible for the Servion's short term disability program, provided you have properly notified your manager about your absence and the reasons for your absence.

Excessive Absenteeism

Excessive absences are detrimental to the department and the company as a whole. It is the responsibility of the manager to authorize the use of PTO and monitor absences to ensure that business operations are not adversely affected. Absences may be defined as excessive if any of the following occur:

- There is a pattern of absences without prior authorization.
- Employee is in an unpaid status without prior authorization due to no available PTO.
- Absences without prior approval interfere with job performance or business operations.

Managers may request medical documentation to support the absences. Excessive absenteeism, failure to obtain prior managerial approval or failure to provide sufficient notice will subject an employee to disciplinary action up to and including termination.

Note: Information on the types of leaves offered and their qualification criteria are included in the "Leaves" section of this Employee Manual.

Subd. 2. **Employer.** Except when based on a bona fide occupational qualification, it is an unfair employment practice for an employer, because of race, color, creed, religion, national origin, sex, marital status, status with regard to public assistance, familial status, membership or activity in a local commission, disability, sexual orientation, or age to:

Hi Sean:

You have been appointed as Guardian. The court should have contacted you. However, you and the others simply need to file the personal well-being report for your brother, whenever it is due.

In regard to the expert testimony, I would be willing to sign an Affidavit that to effect but I cannot serve as an expert witness, sorry. If you attorney wants to talk to me about my opinion and an Affidavit, I would be happy to do that.
